# Shannon Soper

Senior Product Designer, Developer Tools

Salt Lake City, UT (Remote)

shannon.soper@gmail.com | 435-901-1640 | shannon-soper.com | linkedin.com/in/shannonsoper

## SUMMARY

Research-driven and AI-savvy Product Designer for 8 years' (since 2018), specializing in developer tools at Gatsby, Postman and Trunk.io. Prototypes in code with AI tools & former top contributor to the Gatsby GitHub repo. Track record of activation and conversion gains and of building collaborative design practices at early-stage companies alongside engineering and product leaders.

## WORK HISTORY

**Independent Product Designer**, June 2025 - Present

- Contributing design and code to open-source project Kitchen AI, an app that uses AI to convert recipes to organized shopping lists

**Senior Product Designer**, Trunk.io, September 2024 - June 2025

- **Owned end-to-end design of Flaky Test Detection onboarding** as sole designer, shipping to all customers and partnering with PM to scope against beta constraints
- **Unblocked Quarantining feature usage** by identifying and resolving three critical usability barriers, building working AI prototypes to validate the fix with users within 1 month
- **Created Trunk's first cross-functional research practice**, bringing engineering and PM into usability sessions, which changed Quarantining feature decisions
- **Expanded the design system** with documented components that became the foundation for the Quarantining feature redesign

**Product Designer**, Postman, June 2021 - February 2023

- **Increased paid conversion 12%** by redesigning the checkout flow after identifying and resolving the top customer friction point
- **Drove a 4% percentage-point activation lift** by redesigning onboarding, validated through user testing and an A/B test against the existing design
- **Grew team's research practice** by mentoring 4 designers with interview templates that became standards

**Product Designer**, Gatsby, January 2018 - April 2021

- **Accelerated plugin ecosystem growth from 51 to 3,000+ plugins** by increasing plugin visibility and making community contribution a high-prestige activity
- **Redesigned Gatsby Cloud onboarding and dashboard** for commercial launch, validating production-ready flows through five usability tests
- **Improved the first-time user experience** (tutorial) after facilitating in-person usability testing with 20 developers
- **Top contributor to the Gatsby GitHub repo** for 12 months

## SKILLS

- **Design:** Developer experience (DX), onboarding and activation design, design systems, CLI design, documentation design, AI product design, usability research
- **Prototyping and code:** Figma, Codex, Claude Code, GitHub, VS Code

## EDUCATION

**MA, English (Rhetoric),** Brigham Young University, August 2012 - December 2015
**BA, English Literature,** Brigham Young University, August 2005 - August 2012
**UX Design Certificate,** Devmountain, August 2017 - December 2017
